ABOUT KALLXO.COM

The online platform www.KALLXO.com is a joint project of the organizations Internews Kosova, Balkan Investigative Reporting Network, NGO "LENS" and the Anti-Corruption Agency, financially supported by the United Nations Development Programme (UNDP) and the SDC.

The platform offers opportunities for all Kosovo citizens to report on corruption, organized crime, fraud, conflict of interest as well as on other cases, such as abuse of official position, negligence, endangering of human rights of Kosovo citizens or endanger of general interest.

Internews Kosova (I/KS) is a nongovernmental and non-for-profit organization, established in 1999 by a courageous team of local and international people. I/KS is an independent organization which since its beginning has been committed to the development of independent media, professional journalism and investigative reporting in Kosovo and in the region.

The Balkan Investigative Reporting Network (BIRN) is a media organization specialized in investigative journalism, monitoring of public services and televised broadcasting.

I/KS, in cooperation with BIRN, produces television shows "Jeta në Kosovë" and "Drejtësia në Kosovë", publishes the online newspaper "Jeta në Kosovë", and the only English newspaper in Kosovo, "Prishtina Insight." In addition, Internews Kosova and BIRN monitor the provision of public services and local and parliamentary elections in Kosovo.

METHODOLOGY

Internews Kosova (I/KS) and the Balkan Investigative Reporting Network for the second year in a row have monitored the State Matura Exam through direct visits in the Testing Centres, observing and video-recording of the state of the exam, taking notes and interviewing students, parents, citizens, exam administrators, officials of the Ministry of Education, Science and Technology (MEST) and those of the Municipal Directorate of Education (MDE).

Bearing in mind that MEST prepares the State Matura Exam as part of the regular learning process and the fact that Internews Kosova and BIRN built the KALLXO.com platform for reporting on corruption, this is a natural partnership. Considering the need for quality cooperation between civil society and governmental institutions, parties agreed to continue the collaboration started last year in monitoring the exams.

This collaboration is buttressed by the experience that Internews Kosova and BIRN have built reporting and monitoring important processes through credible and impartial reporting. The partnership was formalised in a Memorandum of Understanding to have the State Matura Exam monitored by KALLXO.com team.

According to this agreement, MEST invited all students, teachers and all Kosovo citizens to use the KALLXO.com platform to report all potential irregularities that occured during the administration of the State Matura Exam process.

MEST, as per this agreement, was to ensure all KALLXO.com monitors uninterrupted access in all school spaces where the State Matura Exam would be administered, as well allow photographing, recording and documenting in all manners the whole administration process of the State Matura Exam.

KALLXO.com teams agreed to apply the highest standards of monitoring and impartial and professional reporting while not interrupting in any way the process of organisation and welfare of the State Matura Exam.

The centres where KALLXO.com team monitored the Matura Exam on June 6th and 20th 2015:

DEÇAN: "Vëllezërit Frashëri" and "Tafil Kasumaj";

FERIZAJ: Gymnasium "Shaban Hashani", primary school "Gjon Serreçi', Technical school "Pjetër Bogdani", Agriculture school "Zenel Hajdini", Gymnasium "Kuvendi i Arbërit", Economics school "Faik Konica", Primary school "Jeronim de Rada";

GJAKOVË: Primary school "Yll Morina", the building of Faculty "Fehmi Agani", primary school "Zekeria Rexha" (both the new and the old building);

GJILAN: Gymnasium "Zenel Hajdini", natural sciences gymnasium, technical secondary school "Mehmet Isai" and economics school "Marin Barleti";

ISTOG: Primary school "Bajram Curri" (in 'Centre 1' and 'Centre 2');

KAÇANIK: Gymnasium "Skenderbeu" and secondary professional school "Emin Duraku";

KLINË: Gymansium "Luigj Gurakuqi" and secondary professional school "Fehmi Agani";

LIPJAN: "Vëllezërit Frashëri" and "Adem Gllavica";

MALISHEVË: Gymnasium "Hamdi Berisha" (including the building of the primary school "Ibrahim Mazreku") and secondary professional school "Qendra e Kompetencës";

MITROVICË: "Frang Bardhi" and "Hasan Prishtina";

OBILIQ: "Hasan Tahsini" and"17 shkurti";

PEJË: Gymnasium "Bedri Pejani" and secondary school of applied arts "Odhise Paskali";

PODUJEVË: "Shaban Shala" school and the secondary economics school "Isa Boletini".

PRISHTINË: "Dr. Ali Sokoli", "Xhevdet Doda", "28 Nëntori" and gymnasium "Sami Frashëri";

PRIZREN: "Gjon Buzuku", primary school "Abdyl Frashëri" and primary school "Fadil Hisari";

RAHOVEC: "Xhelal Hajda - Toni" and secondary professional school "Selajdin Mullabazi – Mici" and "12 Maji";

SKENDERAJ: Gymnasium "Hamzë Jashari" and secondary technical school "Anton Çetta";

SUHAREKË: Gymnasium "Jeta e Re", secondary technical school "Skender Luarasi" and secondary professional school "Avdyl Rama" in Shirokë;

VUSHTRRI: Gymnasium "Eqrem Çabej", secondary technical school "Lutfi Musiqi", "SHMU 2", "Ali Kelmendi", "Naim Frashëri" and secondary professional school "Bahri Haxha";Frashëri" dhe Shkolla profesionale "Bahri Haxha";

EXECUTIVE SUMMARY

This report presents the findings of the monitoring of the Matura Exam by KALLXO.com team during the June 2015 term.

33,000 students took the Matura Exam in 250 exam centres administered by 2,500 administrators, 800 commissioners and 500 supervisors.

KALLXO.com monitors observed the Matura Exam in 10 municipalities: Obiliq, Kaçanik, Suharekë, Ferizaj, Skenderaj, Lipjan, Mitrovicë, Gjilan, Malishevë, Prishtinë, Istog, Deçan, Gjakovë, Prizren, Podujevë, Pejë, Vushtrri, Klinë and Rahovec.

KALLXO.com were well received in the majority of the Exam Centres and the administrative staff was predominantly cooperative.

However, there were some exceptions such as in the schools "Luigj Gurakuqi" in Klina, "Marlin Barleti" in Gjilan and "Xhelal Hajda- Toni" in Rahovec, where the principals Xhafer Bashota in Klina, Xhevat Kastrati in Gjilan and Igballe Cakaj in Rahovec, refused to grant entrance or to allow KALLXO.com teams to record.

After MEST officials reacted, in Klina and Gjilan these problems were overcome and KALLXO.com teams were allowed to continue their work uninterrupted at least on the second round of the exam, while in Rahovec, the official Igballe Cekaj refused to implement the agreement reached between MEST and KALLXO.com to monitor the exam.

KALLXO.com staff visited 60 exam centres and conducted 200 interviews with students, parents, administrators and other officials engaged in the exam.

Furthermore, 47 publications were posted including 17 specific articles on June 6th. On June 20th there were 43 articles published with 13 unique titles.

In addition, Internews Kosova and BIRN organised and broadcasted a televised debate in the scope of the "Life in Kosovo" televised debate, in order to discuss the latest developments that occurred in the June 2015 term of the State Matura Exam. http://jetanekosove.com/sq/Debate/-145Jeta-ne-Kosove-146-Diskutoi-per-Testin-e-Matures-1262

KALLXO.com reports are proof that the Matura Exam has undergone significant improvements during the organisation and implementation of the Matura Exam compared to last year. According to KALLXO.com reports, better and more serious mobilisation was noted related to the commitment to ensure the welfare of the administration of the Matura Exam.

Nevertheless, this year there violations in the administration and the supervision of the exam.

These included delays of administrators, problems and mismatches on the lists with the names of students eligible to attend the exam, and most importantly clarifications, information and uniformity in implementing the rules of the exam. All of these remain challenges.

Similar to last year, out monitoring teams noted varying applications of the rules set by MEST.

There were different interpretations and manners of application of procedures of identification of students, keeping electronic appliances (mobile phones etc.,), removals of bags, and uninterrupted acess on Internet etc. This not only differed from exam centre to exam centre, but also within the same exam centre.

The biggest problem was cheating and distribution of answers through social media. Compounding the problem was the weak reaction of the Cyber Crimes Unit of the Kosovo Police.

The following are detailed findings that came out during June 6th and 20th 2015.

THE FINDINGS OF THE MONITORING OF MATURA EXAM ON JUNE 6TH AND 20TH 2015

Delays in opening and closing of the exam centres

This year as well, in some municipalities, the Matura Exam did not start or finish on time as planned.

The closing of the exam was delayed in schools **"Fadil Hisari"** in Prizren (10 minute delay); **"Hamdi Berisha"** in Malisheva (15 minute delay) and **"Shaban Hashani"** in Ferizaj (20 minute delay).

In some schools the delay was caused as a result of problems with students' names in the lists. In the secondary school **"Skender Luarasi"** in Suhareka, more than 10 students names were not in the list, but later did attend the exam.

According to the school principal, Gëzim Sopa, the reason why this problem occurred were the delays of students in making the required payment. But, according to him, all of them had made the payments and even though they were not part of the list, they were allowed to attend the exam.

In the school **"Xhelal Hajda - Toni"** in Rahovec, the KALLXO.com team reported that at 10:17am still in some classes the exam had not commenced due to the material not having been distributed. The cause of the delay was the insistence of the administrators not to distribute the exams before having all mobile phones being handed over by students in all classes.

In the musical school **"Lorenc Antoni"** in Prizren, the second part of the exam had not commenced on time. The delay was caused due to the material by MEST having been mixed, as they got the exams, which had been prepared for the general gymnasium instead.

After consultations of the competent staff of the school with MEST, it was decided for all students to leave the school until adequate material arrived from Prishtina. The director of Education in Prizren, Nexhat Çoçaj, notified the students that the exam in this school would start at 11:30 and the delay would be compensated.

Similarly, in Prizren in the first day of the exam on June 6th 2015, the exams were mixed in the school **"Fadil Hisari"** of this municipality. .

The same problem was identified and reported on KALLXO.com during the monitoring of the exam last year. Hence, it was expected from the MDE and MEST to take the necessary measure measures to make sure the exams would not end up being mixed again.

THE ADMINISTRATION OF THE MATURA EXAM

During this year as well, KALLXO.com monitors have reported about problems in some municipalities. In the gymnasium **"Frang Bardhi"** in Mitrovica, KALLXO.com monitors reported the absence of administrators. The report was made at 10:15, fifteen minutes after the Matura exam should have commenced.

In addition, in some municipalities there were problems with the list of students who had made the payments to attend the Matura exam.

In Lipjan even though copies of the payment receipts were provided, two students did not find their names on the list for the Matura Exam, B. K. and E. R.. These students of the gymnasium "Ulpiana" were able to attend the exam only 40 minutes after a decision of the commission.

Another 11 students who had not passed the exam on 2014 and had to retake it now did not find their names on list for the gymnasium **"Vëllezërit Frashëri"** in Lipjan. They were notified afterward that their names were on the list for the exam on another school. The commission of the gymnasium **"Vëllezërit Frashëri"** allowed them to take the exam in this school as the school course they would have to take the exam on was being held in this school.

The lack of clear information about the schedule of commencement and completion of the Matura Exam resulted in a student of the **"Shaban Shala"** school in Podujeva complaining about the time provided to them. She claimed that even though she knew all the answers she was not able to complete the exam as the exam sheets were collected 10 minutes before the official closing time.

After negotiation with the MEST administrator, it was decided to give this student 2 extra minutes to complete the exam.

In the school **"Fadil Hisari"** in Prizren, 256 students of the technical secondary school **"11 Marsi"** took the Matura exam. On June 6th 2015 there were confusions in the list of names of students. In this list, the names of previous student were put in instead of the current ones supposed to take the exam.

"The students are in the lists of the Municipal Directorate of Education and the School Directorate, however in the list of MEST there is confusion. MEST provided different lists while the municipal directorate and the school now provided us with different names," said Qamil Veliji. The Municipal Director of Education Nexhat Çoçaj was informed about the problem as well and he said they reacted on timely manner and avoided the problem by securing the lists of students of the school.

"There were uncertainties and inconsistencies in the lists hence the exam started later. Now everything is fine, bust still the exam commenced with a 30 minute delay" declared Çoçaj, also stating that he suggested the teaching staff to compensate the time the students lost in the process. KALLXO.com monitoring has also proved that in the second part of the Matura Exam, this problem was avoided and not repeated.

In the gymnasium **"Luigj Gurakuqi"** in Klina, a class of 15 students completed the exam ahead of time. The administrator said that the student completed the exam despite the fact that they had an additional 60 minutes at their disposal. The exams were sent to the office of the school principal where other members of the commission were as well.

Similar cases of students completing the exam ahead of the given time were also noted in the professional secondary school **"Fehmi Agani"** in Klina and the **"Faik Konica"** school in Ferizaj.

The administrator of the Matura Exam in Gjilan faced problems identifying students whose names figured in the lists of those who had misused the exam in the first part of the exam on June 6th.

The Ministry of Education had informed them that 67 students from across Kosovo were expelled from the exam due to having cheated on the exam on the first part, out of which 12 were from the schools in Gjilan.

In the exam centre **"Zenel Hajdini"** in Ferizaj, due to the heavy rain, students were placed in the school halls without prior control or identification.

In the secondary technical school **"Mehmet Isai"** in Gjilan, the absence of three administrators caused problems in three classes. The absence of the administrators in Gjilan happened due to unclear communication with the Municipal Directorate of Education in Gjilan. The three administrators from Lipjan instead of going to Gjilan had stopped in Prishtina.

Facing these circumstances, the MDE in Gjilan had to replace these administrators with Gjilan professors who were not prepared and did not know the rules of the Matura Exam. The school principal, Xhevat Krasniqi and the director of Education, Nazmi Musa said that this problem was avoided fast and did not cause any delays or obstacles. During the interview with one of these teachers who were engaged as administrators at the very last moment, KALLXO.com learnt that he had many difficulties to adapt to the development of the exam process, as he had no prior preparation.

In the café bars just in front of the gymnasium **"Jeta e Re"** a large number of family members of students and youth was noted, and they were trying to assist the students who were conducting the exam in different manners.

In the secondary school **"Anton Çetta"** in Skenderaj, students could enter the exam even without Identification Cards. The school principal, Bekim Latifi, confirmed this for KALLXO.com saying "Even though they don't have their IDs, they are students of this school and we cannot forbid them from attending the exam".

In a class of the school **"Shaban Shala"** in Podujeve, students who were attending the exam were allowed to keep their bags on their desks, while in other classes all bags were taken and placed in a desk at the end of the class. The same occurred also with the mobile phones of the students.

Supervisors of these schools said that they have not checked the students' pockets to take out the mobile phones but they stated that they would intervene if they would see any attempts of students to use the phones during the exam.

In the secondary technical school **"Skender Luarasi"** in Suhareka there were problems with the names of students in the lists, after some students who had made the required payment, albeit tardily, still did not see their names on the lists. Nevertheless this problem was resolved.

WIRELESS INTERNET IN THE "FRANG BARDHI" SCHOOL IN MITROVICA

Some citizens reported on KALLXO.com that students of the secondary school **"Frang Bardhi"** had internet access. KALLXO.com teams immediately verified this report. Half an hour after KALLXO.com reported the news, and the officials of the **"Frang Bardhi"** in Mitrovica disconnected the Internet.

KALLXO.com monitors from this school reported that two students of the **"Frang Bardhi"** school in Mitrovica were expelled from the exam on June 20th after they were identified as the ones misusing the exam and distributing it on social media on the first day of the exam on June 6th.

Some other school across Kosovo also had uninterrupted access to Internet. In the primary school **"Anton Çetta"** in Skenderaj, the KALLXO.com team reported that there was uninterrupted Internet but no one took any measures to address this information up until the exam was completed. The principal of this school Bekim Latifi justified this by saying that they needed access to Internet.

On the other hand, in Prizren, the municipal director of education Nexhat Çoçaj, confirmed to KALLXO.com that they had identified two students who on June 6th had misused the exam and they were expelled from it on June 20th. In the meantime, Çoçaj also informed KALLXO.com that these two students seem not to be students of any school in Prizren and they are not known to the MDE in Prizren at all.

KALLXO.com even last year had revealed the massive distribution of the exam on social media, which resulted in the Basic Prosecution in Prishtina opening up a case on the matter.

USAGE OF MOBILE PHONES AND THE DISCIPLINE OF STUDENTS

KALLXO.com teams have also reported about the presence and usage of mobile phones during the Matura State Exam.

The lack of clarifications and of uniform implementation particularly when it comes to allowing mobile phones, resulted in the principal of the **"Frang Bardhi"** gymnasium in Mitrovica, Ismet Ferizi, to personally deal with a student and convince him to hand over his mobile phone.

The student had initially refused to give up his phone saying that about 70% of students had their phones with them. The principal, Ismet Ferizi, without ever raising his voice and only kindly asking the student, eventually convinced him to hand over the phone thus enabling a smooth continuation of the exam without further obstacles.

On the other hand, KALLXO.com teams photographed other phones being taken from the students in other municipalities across Kosovo.

In the secondary school **"Zenel Hajdini"** in Ferizaj, a student had threatened an administrator of the Exam Centre after he had refused to hand over the phone during the exam. The supervisor of the centre, Sedat Baraliu said that the case was reported to the Police and it is up to them now to deal with it. Whereas, the spokesperson of the Regional Police in Ferizaj, Agim Gashi, confirmed that they had escorted a student in the police station.

The KALLXO.com team has documented cases of phones being used in Rahovec as well. In a class of the gymnasium **"Xhelal Hajda"** at least one student was filmed using the phone.

KALLXO.com monitors have also filmed the administrator who was using the phone while being among the students who were taking the exam in the **"Frang Bardhi"** school in Mitrovica.

ANSWERS OF THE EXAM MASSIVELY DISTRIBUTED ONLINE

On of the most concerning problems during the State Matura Exam was cheating and distribution of the exam via social media. On June 6th 2015, citizens reported on KALLXO.com that organised groups through social media were distributing answers to the exam.

KALLXO.com had reported factual cases of distribution of the tests in different cities of Kosovo such Prishtina, Gjakova, Gjilan and Suhareka. Different channels of communication were used but mainly Facebook, Viber, Whatsapp, and even Twitter.

Some of the exams were being distributed openly through public links. Some of the comments in these illegal communications contained words such as "I am here at the café bar with some teachers."

Cheating and distribution of answers to Matura Exam also happened on the second day of the exam on June 20th, even though the need to fight this phenomenon was immediate.

Even after the State Matura Central Commission had undertaken measure to expel 67 students from the exam due to having caught them cheating in the first part of the exam in June, this phenomenon did not stop in its second testing day either.

KALLXO.com also noted a very weak reaction of the Cybernetic Crimes Unit of Kosovo police, who were expected to have a faster and better reaction, as well as to be more determined in fighting the misuse of the exam through the Internet.

OBSTRUCTION OF KALLXO.COM TEAMS IN THEIR WORK

Despite an official agreement with MEST, some teams of KALLXO.com were obstructed from conducting their monitoring. In the **"Luigj Gurakuqi"** school in Klina, the KALLXO.com team on June 6th was interrupted from monitoring the exam.

Xhafer Bashota, the manager of the exam centre and principal of the **"Luigj Gurakuqi"** in Klina, insisted that KALLXO.com does not monitor the exam in this school, even though the names of all monitors and reporters were officially provided to him beforehand by the MEST.

This reaction of Xhafer Bashotës was considered to be of a personal nature due to KALLXO.com having reported criticism towards the school he runs in the past. Nevertheless, KALLXO.com team did not face any more problems while monitoring this exam centre on June 20th 2015.

The KALLXO.com team was also interrupted in Gjilan. In the economics school **"Marin Barleti"** on June 6th, the team was not allowed to monitor despite having an agreement with MEST.

Xhevat Kastrati, the principal of the economics school "Marin Barleti", together with two other teachers, dismissed the KALLXO.com team from the exam centre.

Immediately after this, the head of the commission for the exam in Gjilan, Hilmi Retkoceri, came to the centre and informed the principal Xhevat Krasniqi that KALLXO.com cannot be ruled out of the monitoring, because their access has been granted by MEST. This intervention enabled KALLXO.com not to have any more problems.

In the school **"Xhelal Hajda - Toni"** in Rahovec, Igballe Cakaj interrupted the KALLXO.com team in filming the exam on June 6th 2015. This decision of Igballe Cekaj came a few minutes after KALLXO.com published a video in which students were seen using their phones during the exam.

The official justification of Igballe Cakaj was that the means of filming were not stipulated in the agreement between MEST and Internews Kosova. Even after reporting this incident to MEST, the same problem occurred on the second day of the exam on June 20th, in the school **"Xhelal Hajda – Toni"** and **"Selajdin Mullabazi – Mici"**. The KALLXO.com team did not have problems using the same camera in other schools in Rahovec, such as **"12 Maji",** where officials showed a high level of cooperation.

RECOMMENDATIONS

KALLXO.com considers the fact that most recommendations provided by Internews Kosova and BIRN in the previous years of monitoring the Matura Exam have been taken into account and applied by MEST as very encouraging.

A general obligation that came out of this monitoring is the need to oblige all schools to notify the Municipal Directorate of Education in case they have students with special needs who have applied for the test, so it is known in advance. Additionally, the process of making payments should be more convenient.

The need for these prior notifications has been noted as there were cases when these students with special needs had difficulties during the exam.

Apart from the recommendations provided last year, based on the monitoring of KALLXO.com during June 6th and 20th 2015, Internews Kosova and BIRN recommend the Ministry of Education, Science and Technology to take the following steps:

1. The exam should continue taking place in classrooms with 15 students only;
2. The exam should be conducted with open doors;
3. The protocols and the responsibilities of officials engaged in the administration of the exam should be distributed in a timely manner and in written form, in order for them to be aware and prepared in details for any potential situations they may face during the exam, in order to ensure a uniform reaction across Kosovo during the administration of the exam.;
4. MEST should publish a list of instructions, detailing in a clear way what every student should bring to the exam (e.g. pens, calculators, a bottle of water etc.) and what is prohibited (e.g. phones, other documents books, etc);
5. The regulation of MEST for the administration of the Matura Exam should be implemented in a uniform manner and different interpretations of the same rules should not be allowed;
6. The responsibilities in taking part in the administration of the exam should be contractually regulated with all teaching staff. The engagement in the administration of the exam should not be on voluntary basis but regulated as a contractual obligation with the teaching staff, stipulating clearly and fully the rights and responsibilities. In cases where it is proven that administrators violated the rules, such responsibility should be reflected in their employment contract and not only in the fee they receive for their role during the Exam day;
7. Usage of mobile phones in exam halls/classrooms must be completely prohibited. This prohibition should apply with exceptions both for students and exam administrators.
8. Administrators should not leave the classes they have been assigned under any circumstances;
9. The list of participants in the exam should be published in a timely manner in order to enable students to have practical access in it to identify themselves whether they are on the list or not, so that they have necessary time to address their remarks and not to be put in a situation when they cannot change anything;
10. There should be more discipline during the exam (students should not be allowed to cooperate during the exam).
